Noes: Councilmen - None

Abstain: Councilmen - Katzakian

Absent: Councilmen - None

City Manager Graves informed the Council that in November 1974 the City Council and the San Joaquin Council of Governments issued resolutions recognizing a need for public transit in the Lodi area. Under State law this action caused all subsequent Transportation Development Act allocations to Lodi to first be spent on satisfying those transit needs before any funds could be spent on street improvement projects. As a result the \$301,894 1975-76 allocation to Lodi was temporarily "frozen" until the City could complete its Transportation Planning Project which will determine a specific cost for implementing and operating an appropriate transit program.

Due to both delays in starting the Transportation Planning Project and the need to conduct several street improvement projects, City staff has worked with COG the past few weeks to arrange a compromise usage of Transportation Planning allocation funds by Lodi whereby (1) a certain amount of the allocated Transportation Planning Allocation funds needed for transit planning and operation are set aside for use when appropriate; and (2) the remaining funds would then be made available now for conducting important street improvements. Claims describing the actual use of funds under this arrangement were provided for Council's scrutiny.

RES. NO. 42 17

The Council was advised by City Manager Graves that Vineyard Drive has recently been constructed to its intersection with Hutchins Street. Since Hutchins Street has been established as a through street, it will be necessary for Council to adopt a resolution including Vineyard Drive as a street stopping for Hutchins Street.

Councilman Ehrhardt then moved that the Council adopt Resolution No. 42 17 amending Subsection (k) of Section 191, Ordinance No. 493 to include Vineyard Drive as a street stopping for Hutchins Street. The motion was seconded by Councilman Katnich and carried.

Through introduction by the City Manager and subsequent report by the Assistant City Manager, Council was advised that during the past two years, the City of Lodi's insurance premiums have increased well over 100%. It was stressed that the problem has reached the point where some action should be taken to investigate the possibility of reducing the City's insurance costs through some form of self-insurance. Council was informed that Staff has attended a number of seminars and conferences relating to risk management and self-insurance.

The firm of Mund, McLaurin and Co. of San Francisco has been contacted and has presented proposals to (1) conduct a feasibility study on the propriety of self-insuring Workers' Compensation at a cost of \$1500.00 and (2) and to analyze the City's other insurance programs, including a Risk Management study at a cost of \$2500.00.

Minutes of June 16, 1976, continued

Mr. Max Elson, the City's Agent of Record, was in the audience and addressed the Council on the matter stressing that the insurance picture at the present time is ridiculous and encouraged the Council to check into the feasibility of self-insurance. Mr. Elson offered his cooperation in the matter.

Mr. Elson also stated that he is familiar with the firm of Mund, McLaurin and Company and recommended the firm to conduct these studies for the City.

SELF-INSURANCE
FEASIBILITY STUDY

Mr. B. T. "Jim" Howard, 1030 W. Turner Road, Lodi, stated that he sees a lot of people at Lodi Lake Park early in the morning, jogging, fishing and so forth. For this reason, Mr. Howard stated he would like to see the park open at 6:00 a.m.

Minutes of June 16, 1976, continued

Mr. James Linn, 1134 W. Turner Road, Lodi, stated that he favors adoption of Ordinance No. 1078 as he feels the City needs some type of ordinance that can control vandalism in City parks.

ORD. AMENDING
SEC. 15A-5 OF CITY
CODE RE PARKS -
ENTERING CLOSED
AREAS ADOPTED

ORD. NO. 1078

Mr. Miles Cope, 1012 Laurel, Lodi apprised the Council of activities that are taking place at Lodi Lake Park which are of grave concern to him. Mr. Cope asked for citizen cooperation in dealing with the situation and suggested that prohibiting the use of alcohol in the park could be a deterrent to some of the problems that are being experienced.

After lengthy discussion, Ordinance No. 1078 entitled - "AN ORDINANCE AMENDING SECTION 15A-5 OF THE CITY CODE ENTITLED - 'PARKS - ENTERING CLOSED AREAS' " having been introduced at a regular meeting held on June 2, 1976 was brought up for passage on motion of Councilman Ehrhardt, Katzakian second. RECESS

The Mayor declared a five-minute recess, and the Council reconvened at 10:15 p.m.

A staff report concerning turning movements across painted medians at Lodi Avenue and Hutchins Street was presented for Council's perusal. Information concerning violations, citations and accidents in the subject area was highlighted by Public Works Director Ronsko.

MEDIAN AT E. LEG
OF INTERSECTION
OF LODI AVE. &
HUTCHINS

Mr. Ronsko emphasized factors that contribute to both the hazard and traffic problem are:

(1) Church/Lodi and Hutchins/Lodi are two of the City's busiest intersections.

(2) Businesses in this area offer fast drive-in services which creates an additional heavy traffic flow.

(3) Motorists will make illegal turns, intentionally or unintentionally, unless barriers are present.

Minutes of June 16, 1976, continued

Mr. Ronsko pointed out that it is the consensus of police officers who were polled on the subject that these problems can be alleviated only through the use of cement dividers or similar barriers in place of the double-double lines.

A lengthy discussion followed with questions being directed to Staff by the Council.

Mayor Hughes stated that the removal of the barriers was a test and that he felt that the test had not proven positive as far as going ahead and taking the balance of the barriers out. Mayor Hughes also suggested suggested that "no left-hand turn" signs should be installed at the exit of "Jack in the Box" and the two Grand Auto exits.

Additional discussion followed, with Councilman Pinkerton moving that the balance of the medians be taken out. The motion died for lack of a second.

Councilman Ehrhardt then proposed that Council receive a stronger recommendation toward the installation of diagonal raised hash-mark type barriers, installation costs, etc.

More discussion followed, with Councilman Ehrhardt then moving that diagonal raised hash-mark type barriers be installed in the subject area. Mayor Hughes seconded the motion.

Councilman Katnich requested that the proposed recommendation be presented to Council in writing and that the recommendation include more specific terminology and that it also include types of alternates and costs.

Public Works Director Ronsko then stressed that it would be his recommendation that the raised concrete median on the east leg of the Lodi Avenue and Hutchins Street intersection be replaced.

Following additional discussion, Councilman Ehrhardt then amended his motion to authorize the establishment of barriers at the east leg of the Lodi Avenue and Hutchins Street intersection, the type and style of barrier to be determined following a Staff presentation and recommendation at the regular City Council meeting of July 7, 1976.

Mayor Hughes who seconded with the original motion concurred with the amendment and the motion carried by the following vote:

Ayes: Councilmen - Ehrhardt, Katnich,
Katzakian and Hughes
